

THE WINNERS

Buick Valve-in-Head Six-Cylinder Touring Car, Model D-45

BUICK

**The Great Car of Umatilla County
Outsells All Others Two to One**

A WONDERFUL realization of all that could be wanted in a motor car. Its famous valve-in-head motor gives incomparable power and makes eastern Oregon hills look like level roads.

BUICK sturdiness and durability stand the shocks of rough roads that the occupants may ride in pleasure. Proper balance and construction have given lowest cost of operation and up-keep.

BUICK D-44 SIX ROADSTER IN PENDLETON	\$1150

BUICK owners Reorder BUICKS and every third car is a BUICK
Ask these owners why—they know.

We are distributing agents for G. M. C. Trucks, for Umatilla and Morrow Counties.

THE GOODRICH SILVERTOWN —the Original Cord Tire

This wonderful Tire with the TWO-LAYER CABLE CORD CONSTRUCTION is made in the United States by the Goodrich Company only.

Every Tire maker's aim has been to construct a Tire giving maximum Durability combined with maximum Resiliency. The ideal Tire would consist of but ONE PLY—but no one has yet found how to make this strong enough.

The Goodrich RUBBER-COVERED, RUBBER-IMPREGNATED CABLE CORD, however, with a tensile strength of some 200 pounds, has made possible in the Silvertown a TWO-LAYER body—which permits the wonderful Resiliency and the unusual Strength of Silvertowns.

THAT is why you get more mileage, more speed, bigger saving of fuel, and coast farther on Silvertowns. THAT is why any injury is easily and successfully repaired.

There is EVEN TENSION throughout its body—no thick layers to rub together, causing heat and prematurely breaking up the carcass.

Silvertowns are practically stone-bruise proof and exceedingly hard to puncture.

White Star

OIL

"After careful experiments and tests, we have adopted WHITE STAR EXTRA QUALITY MOTOR OIL here at the factory and for use and sale at our branch houses, as best adapted for Fords.

(Signed) "FORD MOTOR CO."

If White Star Extra Quality Oil is good enough to be used exclusively in the Ford factories, branches and service stations, isn't it good enough for YOU?
